

# The power of a desktop. The size of a tablet.

Microsoft Surface 3 – available from O<sub>2</sub>

## Break free from the 9 to 5

The Surface Pro 3's long battery life means that you can work remotely and on the move for longer. With video playback alone, it'll last up to 10 hours before the need to recharge. It can run software usually only suitable for a desktop. That includes the full Office suite of tools, thousands of other Windows-based programs and comes with Windows 8.1 pre-loaded.

Because it's able to handle multiple applications at the same time, multitasking has never been easier. And that has a knock-on effect in terms of increased productivity. You can write meeting notes directly onto the screen – and even record the meeting at the same time.

## Super-fast sharing

The fast 4G connection from O<sub>2</sub> makes collaboration with colleagues, customers and suppliers even easier. The Surface 3 is ideal for streaming video presentations, sharing and amending complex presentations and documents, plus accessing the web seamlessly.

## Use it how you like

The Surface 3 comes with a stand that can be used in three positions, while a detachable keyboard, which is sold separately, allows you to type as if it's a laptop. And, its full-size USB 3.0 port allows you to connect a range of other devices.

## What's under the cover?

- 10.8" full HD touchscreen
- 8 megapixel camera on the back
- 3.5 megapixel camera on the front
- Quad-core 1.6GHz processor
- Windows 8.1
- Full-size USB 3.0 port

The Surface 3 4G comes in 64GB or 128GB versions, with the option of adding up to 128GB more via a microSD memory card.

# And there's more

You can also order the **Surface Pro 3** from O<sub>2</sub>

## What's the difference?

The Surface Pro 3 is the thinnest and highest-performing laptop replacement available. It comes with a larger screen than the Surface 3 and two 5 megapixel cameras front and rear. The 4th generation Intel Core processor delivers super-fast speeds, making collaboration and working quicker than ever.

The device is built around a magnesium frame, making it Microsoft's lightest member of the Pro family. And its Surface pen allows you to draw and write digitally like never before.

## What's under the cover?

- 12" full HD touchscreen
- Two 5 megapixel cameras front and rear
- 4th generation Intel Core processor
- Windows Pro 8.1
- Full-size USB 3.0 port
- Stereo speakers with Dolby®
- Surface pen

The Surface Pro 3 comes in a 128GB version with 4GB RAM or a 256GB version with 8GB RAM.

## Why O<sub>2</sub>?

We're trusted as the mobile provider for some of the UK's most respected organisations with years of unrivalled private and public sector mobile experience. We're the only network operator to have the CAS(T) certification for mobile voice and data services and were given the Best Network Coverage award by uSwitch in 2014. While others may offer a single product or solution, we have a substantial portfolio of Enterprise Mobility solutions which can stand alone or be integrated together, including platforms, devices, applications and even on-premise, hybrid and cloud-based solutions.
