4	SCS	<ul style="list-style-type: none">• O₂ Cloud Readiness Assessment

O₂ provides a simple, transparent and cost-effective procurement process for all public sector organisations.

We have achieved CAS(T) certification on our fixed data services through O₂ Gateway. CAS(T) is the government standard for telecoms security, and O₂ is the first and only network provider to have CAS(T) certification on both our mobile voice and data services.

We are also an established Crown Commercial Service supplier, trusted by thousands of public sector clients.
