

Meraki WLAN from O₂

The Wireless LAN that's fast, easy and affordable.

Refreshing or deploying a Wireless LAN?
Resigned to hassle, hardware and high costs?
Think again.

Support better business operations with Meraki WLAN from O₂: the state-of-the-art Wireless LAN network in the cloud that's up and running in minutes.

The best of all worlds

It's a scalable campus-wide enterprise WLAN delivered as a fully managed O₂ service:

**The simplicity of cloud:**

With devices centrally managed via the cloud, there's no need for expensive on-site hardware controllers or management appliances.

**The assurance of a managed service:**

O₂'s complete, scalable service spans design, delivery, installation, proactive network management, security and service desk.

**The convenience of wifi:**

Your people, partners and customers have the option to enjoy free public internet access via O₂ Wifi by connecting to Meraki.

More affordable

Compared with traditional WLANs, Meraki won't break your budget:

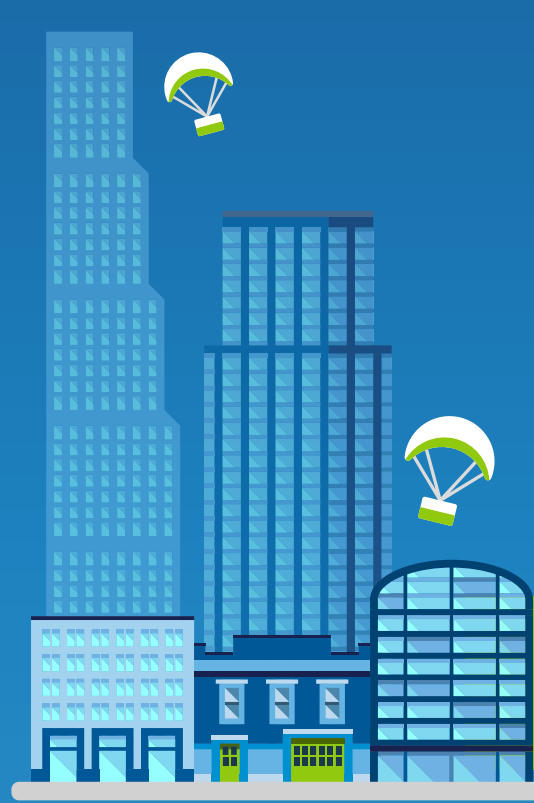

Up to **20%** capital savings

Up to **90%** operational savings

Building a lean IT environment?
Make it happen with Meraki from O₂.

Easy deployment

With Meraki, it takes just minutes to:

- ☒ Configure WLANs without training or specialist staff
- ☒ Set up access points remotely
- ☒ Push configurations to devices

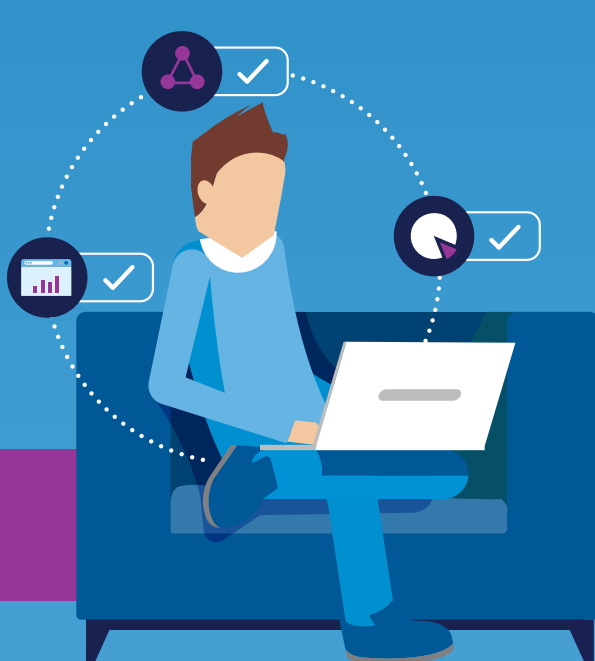

Want pain-free WLAN deployments across large campus or multi-site deployments? You've found what you're looking for.

Added peace of mind

Our managed service takes care of day-to-day technical and management issues:

- ☒ No outages for you to fire-fight
- ☒ No daily performance frustrations
- ☒ All the insight and control you need

We'll make a great team: you focus on your business, while we take care of your WLAN.

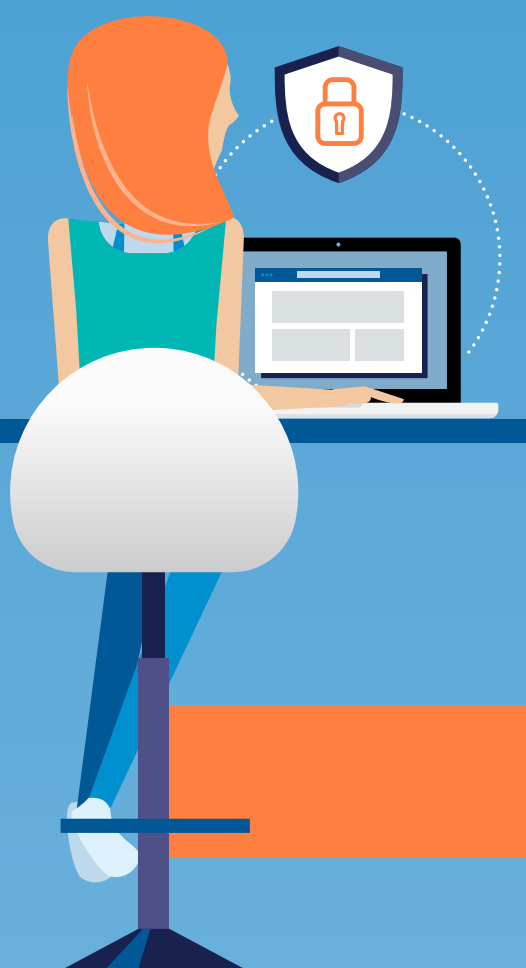

Secure and reliable

Meraki is powered by the trusted Cisco WLAN platform used in over 1.2 million networks worldwide

- ☒ Continuity – highly available cloud with multiple data centres
- ☒ Security – no network traffic passes through the cloud
- ☒ Protection – wireless intrusion, detection and prevention built-in

Meraki Cloud is even PCI compliant, so you and your customers can transact safely.

Choose O₂ with confidence

See how easy it is to roll Meraki out

Leading UK retailer:
over **200** sites enabled
in just 6 weeks

UK housing association
with **9000+** sites:
multiple sites enabled
with no need for
on-site IT

Luxury hotel group:
enhancing guest services
across **28** locations with a
state-of-the-art network

What customers say

"One of the reasons we chose O₂ was because they clearly had the know-how and technical expertise to get easy reliable wifi across a site like Canary Wharf."

Canary Wharf Group
