

# Are all **end points** the same?

The lines are blurring between work and personal. If using our own mobile device or app makes our work life easier, we'll do it. But this can significantly increase the risk of security problems, even if your organisation already has mobile device management.

Do you know how secure **your** organisation is?  
Do you know about all the apps on your network?

**53%**

of smartphone owners use personal devices for business purposes outside of normal working hours

**50%**

of people use their smartphones for at least one work-related activity

Source: Deloitte Global Mobile Consumer Survey 2017, UK edition

Organisations are also using more **cloud** services than ever before

**30-40**

the number of cloud apps enterprises believe they use

**1232**

the actual number of cloud apps used in the average enterprise organisation

And most of these are adopted without IT knowledge

Source: Symantec Internet Security Threat Report 22. Symantec, 2017

In the run up to GDPR, there's an increasing focus on data **security**

**20%**

of cloud-stored documents are widely shared

**2%**

of broadly shared files contain sensitive data of which:

**2%**

PCI (Payment Card Industry)

**19%**

PII (Personally Identifiable Information)

**79%**

PHI (Personal Health Information)

There's a **better** way. You can enjoy enterprise mobility that's highly secure yet flexible.  
Here's how:

#### Choose only the most secure suppliers

O<sub>2</sub> is still the only network provider with the government's CAS(T) certification for both our mobile and WAN networks. It means you can rely on secure connections to your data, wherever it's used.

#### Work with people who really understand mobility

We've been a leader in mobile-led business for 30 years, and our no obligation service – called the Mobility Maturity Assessment – makes sure your organisation has what it needs.

#### Pick from the widest possible set of the latest security products and services

At O<sub>2</sub>, we have close relationships with all the industry-leading suppliers, giving you unrivalled access to advice and support.

Review your **readiness** now

The O<sub>2</sub> Mobility Maturity Assessment quickly analyses your mobility and business strategies to show your readiness to deal with what the future may bring.
